PRODUCT DATA SHEET

SURFACE CLEANER SENSITIVITY

PRODUCT INFORMATION :

- High sensitive cleaning for hygiene area, food production, cooking table, kitchen tools, etc.
- Powerful blends of environmentally preferable mild surfactants from plant extracts
- Rapidly clean grease, proteins, lipids, cellulose, carbohydrates caused by organic waste
- Clean-up any hydrocarbon-based spill or grease/oil on production or shop floors, kitchens or household equipment
- Eliminate slippery floors caused by grease build-up
- Enhance biodegradation above and below ground surface
- Ecologically sound

DIRECTIONS :

Mopping : Fill container with properly diluted product with water 1:20 For best results, with oily floors or visible oil, allow the solution to remain on the surface for about 30 seconds before mopping. Liberally apply to floor with a wet mop and agitate solution into surface.

Auto Floor Scrubber : Start with 1:100 dilutions rate and adjust after testing. For best results heat the solution to 125 °F.

Degreasing : Fill container with properly dilution product. The dilution rate may be determined if the operator will be using rags to clean (stronger), scrub brush (medium), rinsing with a power washer (weaker). When cleaning heavy oil/ grease deposition, allow product to soak for 1-2 minutes before removing.

CAUTION : KEEP OUT OF REACH OF CHILDREN. Do not take internally. Avoid contact with eyes. Wash thoroughly after handling. Avoid breathing mist. May irritate eyes or respiratory system. Use with adequate ventilation.
